### **The pursuit of 911 truth**

**Question: Will it ever prove useful in reversing a  
fait accompli, or in preventing a new one?**

**"I am aware that there is still some who would question, or even justify the offense of 911.**

But let us be clear. Al Qaeeda killed nearly 3000 people on that day. The victims were innocent men, women, and children from America and many other nations who had done nothing to harm anybody.

And yet Al Qaeeda chose to ruthlessly murder these people, claimed credit for the attack, and even now states their determination to kill on a massive scale.

They have affiliates in many countries, to try to expand their reach.

**These are not opinions to be debated. These are facts to be dealt with."**

**'Public Assumptions' Shape Views of History:** *"Such presumptions are beliefs (1) thought to be true (although not necessarily known to be true with certainty), and (2) shared in common within the relevant political community. The sources for such presumptions are both*

*personal (from direct experience) and vicarious (from books, movies, and myths)."*

A video of initiation of explosive destruction is [here](#) for WTC 1 (North Tower) and [here](#) for WTC 2 (South Tower).

And [here](#) for the sudden free-fall symmetrical collapse of WTC 7 that same day at which Dan Rather of CBS spontaneously exclaimed on air: "... **amazing, incredible, pick your word. For the third time today, it's reminiscent of those pictures we have all seen too much on television before when a building was deliberately destroyed by well-placed dynamite to knock it down,**" and which the [BBC](#), in surely what must be the most surreal moment in live news reporting history, announced many minutes before it even happened!

**"These are not opinions to be debated. These are facts to be dealt with."** Indeed, had these facts not already seeded the premeditated [fait accompli](#) for [one world government](#)! This preliminary [status report](#) and the Council on Foreign Relations' [Global Governance Monitor](#) make that irrefutably clear, as does the United States Secretary of State, Hillary Clinton, while speaking at the CFR in [July 2009](#).

The Nobel Peace Prize Committee too has unequivocally acknowledged this [fait accompli](#) by granting President Obama the coveted "[Peace Maker](#)" moniker. This public relations design calculatingly helps reinforce the public myths of a '[savior](#)' in exactly the same way as many a [superlative marketing campaign](#) synthesized the '[change](#)' myth in order to [rally the masses](#) and their [shepherds](#) – with or without illusions – behind the [new face](#).

Therefore, the obvious question arises:

Given the establishment's and the entire world's elite's unstoppable momentum in aiding and abetting the status quo as narrated by the new Nobel Peace Laureate, the President of the United States of America in the video above, can the pursuit of 911 truth ever prove useful in reversing any of the [faits accomplis](#) that have already been built upon it? Or, in preventing any of the pending ones which are planned to be harvested from more global crises? All these incremental [faits accomplis](#), apparently, eventually culminate in one-world government. Once there, what can be done with 911

truth, or about it, except perhaps write histories for pecuniary gain and win  
Nobel Prizes?

Thank you.

Zahir Ebrahim,
